

APC

Uninterruptible power supplies, power distribution, and rack enclosures.

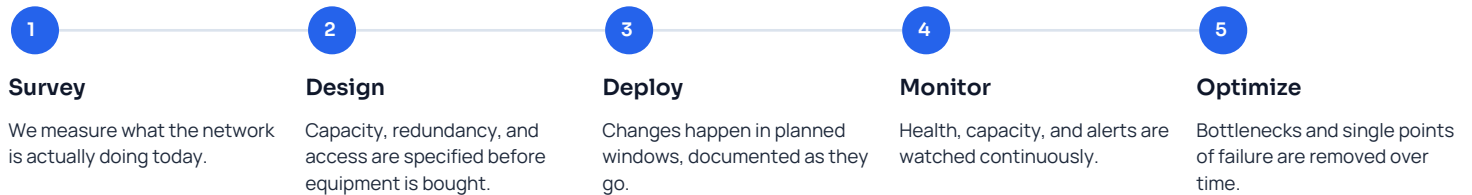

Service illustration • Networking Infrastructure

APC by Schneider Electric makes uninterruptible power supplies, power distribution units, and racks. Massive IT sizes and deploys APC power infrastructure to protect servers and network equipment from outages and surges.

A clear path to delivery

Product areas & practical applications

Product area	Practical application
Smart-UPS	line-interactive and online UPS systems for servers and network gear
Rack PDUs	metered and switched power distribution
NetBotz and monitoring	environmental and power monitoring
Racks and enclosures	racks and cooling for network closets and server rooms

When to talk to us

- Servers and switches that crash during brief power blips
- UPS batteries that are years past replacement
- No graceful shutdown during extended outages

Deployment & ongoing support

Massive IT sizes UPS runtime to the load, installs network management cards for monitoring and automated shutdown, and tracks battery replacement cycles.

Scope and licensing vary by environment. Product availability and support terms are confirmed during planning.
