

Cisco Meraki

Cloud-managed wireless, switching, and security appliances.

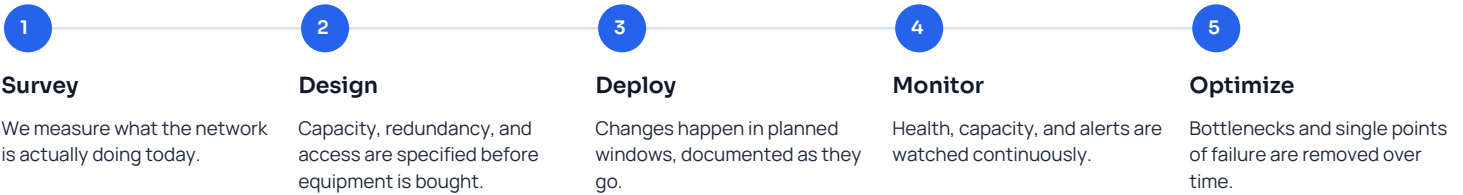

Service illustration • Networking Infrastructure

Cisco Meraki delivers wireless, switching, security appliances, and cameras managed entirely from the cloud. Massive IT deploys and manages Meraki networks for customers that want simple, centralized management across sites.

A clear path to delivery

Product areas & practical applications

Product area	Practical application
Meraki MR wireless	cloud-managed Wi-Fi access points
Meraki MS switching	cloud-managed access and aggregation switches
Meraki MX security appliances	SD-WAN, firewall, and VPN
Meraki MV cameras	cloud-managed smart cameras

When to talk to us

- Multiple sites managed separately with inconsistent settings
- No easy visibility into network health and clients
- Complex VPNs between offices

Deployment & ongoing support

Massive IT designs Meraki deployments, configures templates for consistent multi-site setup, and monitors and manages the dashboard on the customer's behalf.

Scope and licensing vary by environment. Product availability and support terms are confirmed during planning.
